

May 14, 1973

(Start of Belt #27)

going to end up, and I'd like to ask the chairman of the appropriations committee a question.

SPEAKER: Senator Marvel, yield to a question.

SENATOR PROUD: Senator Marvel, on these various amendments that are being passed seemingly with gay abandon, does the appropriations committee have a position on them.

SENATOR MARVEL: Well we made the recommendations as presented to you on a 3 year basis. Those are our recommendations. That is our opinion.

SENATOR PROUD: Well, what I am getting at, am I to assume that any amendment that is put on this bill by an individual Senator, is not in accordance with the budget committee's recommendation?

SENATOR MARVEL: I would say yes, and any other member of the committee can correct me if they disagree, with the exception of the original recommendations from Senator Luedtke in regard to the penal reform. Now I'm not familiar with the last amendment he has, but the prior amendment, I think was in general agreement. We have not discussed beyond that.

SENATOR PROUD: In other words, would it be a correct statement to say that in voting for any of these amendments, or certainly most of them proposed by a, individual Senators, we are violating and going against the recommendation of our own budget committee?

SENATOR MARVEL: Your going against the recommendation of the committee.

SENATOR PROUD: Thank-you.

SPEAKER: Further discussion? Senator Carpenter.

SENATOR CARPENTER: A lot of these things you've never heard of as a budget committee. You don't really know whether your for or against them and many of the times, there were no public inquiries in which we didn't go and I presume maybe we should have. I don't think it is a fair statement to say that what you are doing here, the budget committee's opposed to because I don't think that they ever had it submitted to them. I know all the amendments I have, they never heard of, but I'm sure that is other members here. I don't think that is a statement that can be accepted as a face value.

SPEAKER: Further discussion? If not, Senator Luedtke, do you care to close on your amendment to the amendment.

SENATOR LUEDTKE: Yes, Mr. President, I would just say that this particular amendment that I, that is before the legislature, was brought to the attention of the appropriation committee. This was brought to the appropriation committee by the judiciary committee as a recommendation that these funds be taken out of revenue sharing. The only difference is and I submit that this is a difference which is quite important, the only difference was we requested of some 7 plus million dollars to be taken out of revenue sharing all at one time, a one time trot this year. The way that the proposals and the amendments, including the amendment which you just adopted with regard to the diagnostic and evaluation center, we would not take it out all at one time. There would only be \$138,000 taken out for the diagnostic evaluation center this year for 73-74 and there would only
